Voice and Category 5 Data Termination Kit 30

Coax/Twisted Pair LAN Termination and Test Kit 30

Professional Installation Kit 31

Clip-On Twisted Pair Kit

*Screwdriver
not included*

The Clip-On Twisted Pair Kit combines the most commonly used tools for terminating voice and data cabling into an easy to carry kit that mounts on the contractor's belt.

- The kit includes the 110 Punchdown Tool, Electrician's Snips, Twisted Pair Stripper and Pocket-Light Flashlight. It provides the most essential tools right at the installer's side.
- Rugged Cordura® material is built to last, lowering replacement costs and inconvenience.
- Heavy-duty metal clip snaps over the installer's belt so that the kit can be removed without removing the belt.
- Side holsters allow the installer to carry a flashlight and a favourite screwdriver.

Professional Installation Kit

This complete kit includes the tools, connectors and testers for installing and maintaining most types of communications cabling including voice, data and cable TV and coax Ethernet networks. Both commercial and residential installations frequently use all three cabling types. The durable Cordura® Plus carrying case protects and organises tools and includes see-through pouches for storing connectors. The case has durable handles and eyelets for adding a shoulder strap. Outside pockets provide convenient storage locations for instruction manuals or worksite documents.
